PROFESSIONAL SUMMARY

Versatile and results-driven Full Stack Developer with 3+ years of experience building scalable web and mobile applications. Proficient in Laravel, Node.js, Kotlin, and JavaScript, with a strong focus on delivering high-quality code using Test-Driven Development (TDD) and modern CI/CD practices. Passionate about user-centric design, performance optimization, and bridging the gap between frontend and backend systems to deliver robust, maintainable solutions.

TECHNICAL SKILLS

- Languages: PHP, Kotlin, JavaScript, Python, SQL, Java
- Frontend: HTML, CSS, JavaScript, React, Jetpack Compose, XML
- Backend: Laravel, Node.js, Express.js, Flask, FastAPI, Spring Boot
- Databases: MySQL, MongoDB, Firebase, Cloud Firestore, MariaDB
- Tools & Platforms: GitHub, GitLab, CI/CD, GitHub Actions, Firebase, Docker, AWS, GCP
- Other: REST APIs, Kotlin Coroutines, KMM, Unit Testing, Dependency Injection, Figma

WORK EXPERIENCE

Android Developer

Turing – Remote | Jun 2024 – Jul 2025

- Developed and maintained production-ready Android apps using Kotlin and Jetpack Compose.
- Integrated RESTful APIs and managed app architecture with clean code principles.
- Employed TDD and CI/CD pipelines to streamline deployment and ensure app stability.

Full Stack Engineer

Holvada – Kampala, Uganda | Jan 2021 – Jul 2025

- Designed and implemented scalable full-stack solutions using Laravel, Node.js, and MySQL.
- Built REST APIs, integrated third-party services, and led the development of responsive frontend interfaces.
- Improved system performance and security, reducing downtime by 30%.

Code Facilitator

CodeImpact – Kampala, Uganda | Jan 2023 – Apr 2023

- Delivered training in web development fundamentals (HTML, CSS, JS, PHP).
- Mentored students in building full-stack web applications, promoting best practices and code quality.

EDUCATION

Bachelor of Information Technology

International University of East Africa (IUEA) — Jan 2021 – Nov 2023

CERTIFICATIONS

- Advanced Programming in Kotlin — Jul 2024
- Developing Back-End Apps with Node.js and Express — Jul 2024
- TDD Android Development — May 2024
- GitHub Actions: The Complete Guide — Oct 2024
- AI for Developers with GitHub Copilot, Cursor AI & ChatGPT — Oct 2024
- Introduction to CI/CD — Oct 2024
- Certificate of Achievement – Web Development Training — Aug 2022

PROJECTS

Targeted Learning LMS (Moodle + AI) | Jun 2024 – Sep 2024

Built a learning management system that personalizes content based on users' VARK learning styles using AI and Moodle backend.

Carpool App | Apr 2024 – Sep 2024

Android app allowing users to share rides in Kampala. Integrated Google Maps and real-time updates.

Rinfo (Business Recommender App) | Aug 2022

Mobile app that recommends businesses based on user reviews and engagement.

Available on Google Play (Beta).

x-clone-api & Twitter API Clone | Mar – Apr 2024

Developed a RESTful API backend using Node.js and Express with authentication and CRUD operations.

Sevva (Expense Tracker)

Personal finance tracker built with Kotlin and Firebase for budget management.

ADDITIONAL STRENGTHS

- Strong communication and teaching skills
- Agile and remote-first team collaboration
- Business-savvy with a background in Business Administration
- Passion for AI integration and automation in learning tools
